

Winning through Habits (PB): 10 Niches. 12 Assets. 1 Platform.

How Monzo recombines its asset portfolio into 9 Market
Entry Points.

100X Niche methodology

What we did:

To find Monzo's best entry points in Spain, the GTM team focused on **struggling moments** ("What is hard for them right now?").

What is an ECP:

Early Customer Profiles (ECPs) are the intersection between what customers need, what competitors lack, and what Monzo can solve.

A niche is not a user persona. They represent **situational mindsets** defined by a specific struggle or behaviour and they may overlap

How we did it:

The GTM team **scraped ~1,500 financial "problems"** from Spanish forums like Forocoches and Reddit and filtered for problems solvable by a bank, narrowing it down to ~60 Business Banking niches.

What we focused on:

The GTM and Research teams **identified 5 niches**—the ones with the most knowledge gaps and unvalidated assumptions and run a series of **in-depth interviews** with them.

Meet the 9 Niches we researched:

1. **Travelers** - Frequent international travellers (3+ trips/yr).
2. **The Unofficial Group Trip Treasurer** - Trip organisers who manage group expenses.
3. **Divorced Parents Managing Child Expenses** - Digitally savvy co-parents.
4. **The Decoupled Couple** - Young couples (25-40) who value financial autonomy.
5. **Flatmates Managing Shared Bills** - Students & young professionals (18-30).
6. **Complex Saving Methods** - 50/30/20 & envelope budgeters.
7. **Parents Managing Teenagers' Allowance** - Parents with teenagers aged 12-17.
8. **The Specific Purchase Saver** - Hobbyists saving for a specific goal.
9. **The Subscription Group Payer** - Subscription sharers (Netflix, Spotify, Disney+).
10. **Accidental Landlords** - Owners of 1-3 rental properties.

THE VALUE ENGINE (4 PILLARS)

1. Value Criteria (Pain)	2. Our Asset (Solution)	3. The USP (Promise)
<u>Tax & Compliance Peace of Mind</u> 'Fiscal shock' — unexpected IRPF bill at Renta time after mixing rental income with personal savings.	Tax Pots	<u>The companion account that handles the paperwork and taxes of your rental property.</u> so you can enjoy the income without the headaches.
<u>Fund Separation, Unified Management & Single App Experience</u> Rental income mixed with personal finances — no visibility of net earnings from the property.	Pots (rent income · fianza · repairs)	<u>Instantly separate rent, security deposits, and maintenance funds with Pots.</u> Gain the financial clarity you need to manage your property correctly and avoid costly mistakes.
<u>Sense of Control & Visibility</u> Tax money invisibility — accidentally spending IRPF reserves before the annual Renta declaration.	Direct AEAT Integration	<u>Automatically set aside IRPF with every rent payment.</u> Our Tax Pots ensure you arrive at the Renta declaration fully prepared — your money, your control, zero tax-season anxiety.
<u>Trust in Brand & Reliability (Business)</u> Mortgage conditions tie users to legacy banks — full switch is not an option.	24/7 Human Customer Support	<u>A bank that's actually there for you.</u> Get 24/7 support from real people, not bots, because we know your peace of mind is non-negotiable.
